The joy of sharing books is a gift you can give children from the time they are born. Chanting nursery rhymes, singing songs, and reading stories can comfort and entertain even the youngest child. Children are more likely to be fluent readers and enjoy reading more if parents have fun reading to them. Show children that reading books is a source of enjoyment.

November is also parent conference month . Conferences between parents and teachers are a good time to share information about your child. One way to form a good partnership with the school is through parent teacher conferences . Please sign up in your child's class for a 5 minute conference this month.

What are you thankful for?

Hi'ilani - my family, everything and Rainbow School
